### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught or suggested the use of a "flexible beam" as defined in the claims in a method of establishing an adhesive force where the beam was used to apply a plurality of seta or protrusions on a surface with a force perpendicular to the surface where the beam is sufficiently flexible to produce an adhesive preload force while maintaining the protrusions or seta in parallel alignment while maintaining the preload force. As expressed by applicant, the insect pin of the references clearly is not a "flexible beam" which applied the specified preload force as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.
